Design Systems wins Butler award

Nashville Business Journal - April 15, 2004

Nashville-based Design Systems Builders Inc. has been recognized by Butler Manufacturing Co. as its highest-volume Butler Builder for 2003.

The award was presented to the Nashville design/build contracting company at Butler's recent national sales meeting. Last year, Design Systems, a division of T.W. Frierson Contractor Inc., applied more than \$5.25 million worth of Butler pre-engineered building systems to industrial and distribution facilities.

Since affiliating with Butler in 1976, Design Systems has placed more than \$55 million worth of Butler products in various industrial, distribution and commercial projects.
